Dear Prof. (Dr) J. S. Patil
Vice-Chancellor
National Law University and Judicial Academy

Organizing Committee and Expert Council of the International Achievements Forum 'Achievements 2020' would like to invite you to visit London on 17 April 2020 and make a presentation of your institution National Law University and Judicial Academy as well as attend the annual Ceremony 'Achievements 2020'.

Happy to inform that National Law University and Judicial Academy has been nominated to get 'Achievements 2020' award in the category 'Science and Education' as a leading national higher education institution that has demonstrated significant advancements in educational management and education services standards, and efficient international collaborations.

We thoroughly select nominees and your organization was shortlisted according to the data from several sources. Our analytical department studied materials from various professional conferences, forums, and expos, activities of scientific and professional unions, international funds and associations, industry ratings, the information in media and social media, personal recommendations and expert polls.

Achievements Forum will be held on 17 April 2020 in the Institute of Directors, London, UK. It is a solid international platform for professional communications in different fields of study, including scientific research, education, business, healthcare that can stimulate high-quality networking and professional connections.

Being fully independent of state or political influence Achievements Forum is being recognized by 54 world countries due to a sound combination of global collaboration, substantial communications, and business results.

The event climax will be the Ceremony 'Achievements 2020' where the well-deserved industry awards can provide for brand recognition of innovative national education institutions and their leaders. Award winners will include an international register of advanced national colleges, universities, higher education institutions in the category 'TOP-100. Achievements in 2020. Excellence in Science and Education'. Winners receive a significant prize made from precious metals and a license to use the award for marketing and promotion.

The event will be popularized in global media and get high resonance, it will go live in the official YouTube channel, photos and videos will be provided.

Please do not hesitate to contact me for more information and to confirm your attendance at the Achievements Forum 2020.

Kind regards,

Ms. Anna Miller
