1. Course Objectives

This proposed course is intended to provide the enrolled students of the University a holistic approach to the regime of Trademark (TM) with a view to acquaint, understand and apply it in the practical field.

2. Teaching methodology

The course will be delivered by lecture-cum-discussion method. There will be interactive classroom teaching with the aid of audio-visual facilities, internet, power-point presentations and also practical approach for value-based learning. Important materials shall be provided to the students from time to time. For better understanding of the course, the focus shall be on providing recent developments pertaining to the specific areas and highlighting the important case studies for analysis to the students.

3. Expected Outcomes of the Course

On successful completion of this Course, a student would be in a position to understand and apply the practical relevance with regard to the TM assertion and their protection under various legal settings. The course shall enable the students to undertake exercise to raise questions, carry out research and motivate them to generate IPR awareness among the masses.

4. Course Evaluation Method

Students will be assessed through continuous evaluation requiring the students to submit and present allotted projects and appear in the end-semester examination. All examinations and projects are compulsory and no exemption is allowed in order to complete the course successfully.
