1.	OP 607	Practical Approach towards Industrial Designs	2	0	0	2	

**Code and Title of the Course:** Practical Approach towards Designs and Other IPR

Issues **a. Course Credit:** 2 [Total Marks - 50 (End Semester Exam - 30 marks, Project – 20 marks)]

**b. Medium of Instruction:** English

**c. Course Compiled by:** Dr. Pankaj Kumar, DPIIT-IPR Chair Professor, NLUJAA

**d. Course Instructor:** Dr. Pankaj Kumar, DPIIT-IPR Chair Professor, NLUJAA

**1. Course Objectives**

This proposed course is intended to provide the enrolled students of the University a holistic approach to the regime of Industrial Designs issues with a view to acquaint, understand and apply it in the practical field. This course provides a comprehensive study of Industrial Designs Law in India, covering

fundamental concepts, legal frameworks, and practical aspects of design protection. Participants will gain an understanding of the registration process, criteria for registration, and the significance of industrial design protection in fostering innovation and creativity.

## **2. Teaching methodology**

The course will be delivered by lecture-cum-discussion method. There will be interactive classroom teaching with the aid of audio-visual facilities, internet, power-point presentations and also practical approach for value-based learning. Important materials shall be provided to the students from time to time. For better understanding of the course, the focus shall be on providing recent developments pertaining to the specific areas and highlighting the important case studies for analysis to the students.

## **3. Expected Outcomes of the Course**

On successful completion of this Course, a student would be in a position to understand and apply the practical relevance with regard to the assertion of various contemporary IPR Issues and their protection under different legal settings. The course shall enable the students to undertake exercise to raise questions, carry out research and motivate them to generate IPR awareness among the masses.

## **4. Course Evaluation Method**

Students will be assessed through continuous evaluation requiring the students to submit and present allotted projects and appear in the end-semester examination. All examinations and projects are compulsory and no exemption is allowed in order to complete the course successfully.

## **5. Detailed Structure of the Course (specifying course modules and sub-modules)**
