About the LL.M Programme

The LL.M. programme offered by the National Law University and Judicial Academy, Assam (NLUJAA), in collaboration with the Indian Institute of Corporate Affairs (IICA), is a distinctive postgraduate degree in Corporate Law and Management. The programme has been conceptualised in response to India's growing demand for highly skilled corporate law professionals, particularly those equipped with practical expertise in representing clients before specialised adjudicatory and regulatory forums. These include the National Company Law Tribunal (NCLT), National Company Law Appellate Tribunal (NCLAT), Debt Recovery Tribunal (DRT), Debt Recovery Appellate Tribunal (DRAT), Securities and Exchange Board of India (SEBI), Securities Appellate Tribunal (SAT), Competition Commission of India (CCI), Investor Education and Protection Fund Authority (IEPFA), Insolvency and Bankruptcy Board of India (IBBI), National Financial Reporting Authority (NFRA) as well as the High Courts, the Supreme Court of India, and other regulatory bodies.

India currently faces a significant shortage of corporate lawyers equipped with advanced training and hands-on exposure to complex corporate, commercial, and regulatory matters. In this context, there is an urgent need to cultivate a robust ecosystem of professionally skilled legal experts capable of effectively supporting law firms, consultancies, regulatory authorities, corporate entities, and academia. This LL.M. programme is designed to bridge this critical gap by integrating rigorous legal education with managerial insights, policy-oriented analysis, and strong practical orientation. Designed as a specialised and future-oriented programme, the LL.M. in Corporate Law and Management equips students with advanced knowledge, professional competence, and analytical skills required to navigate the dynamic and evolving landscape of corporate regulation in India. Through a carefully structured curriculum, students engage with core theoretical foundations, practical applications, and in-depth case studies in areas such as corporate governance, regulatory compliance, corporate restructuring, and evolving regulatory frameworks.

The programme follows a dual-campus model, enabling students to benefit from the academic strengths of two premier national institutions. The first year of the programme is conducted at the NLUJAA campus in Guwahati, where students focus on mandatory courses such as Research Methodology, Law and Justice in a Globalized World, and Fundamentals of Corporate Law, alongside specialised subjects including Finance, Corporate Governance, Corporate Restructuring, Insolvency, and Valuation. Collectively, these courses are designed to build a strong academic, analytical, and professional foundation for advanced study and practice in corporate law. The curriculum emphasizes experiential learning through project work, presentations, and intensive classroom interactions, including specialised research-based projects. Students will be mentored by dedicated experts who will provide continuous guidance on emerging regulatory developments in Corporate and allied laws, ensuring that students remain updated with the latest legal and policy frameworks.

The second year of the programme is conducted at the Indian Institute of Corporate Affairs (IICA), Manesar, an autonomous institution under the Ministry of Corporate Affairs, Government of India. This phase of the programme places strong emphasis on advanced and specialised courses, including Commercial Mediation, Trade and Investment Laws, Intellectual Property Rights and Competition Law, Environmental, Social and Governance (ESG), Securities Market Regulation, Corporate Taxation, and Banking Laws.

The Programme fosters a holistic learning journey that equips students for successful careers in Corporate Law and Management, while simultaneously immersing them in the rich cultural diversity and dynamic professional landscape of India's Northeastern region.
